

2016 Oregon Dental Conference DMC Specials

2016 is shaping up to be a big year for our clients. In addition to the following specials, we'll have HIPAA/OSHA expert Lee Slaton at our booth ready to answer all your compliance questions. It's absolutely free to consult with Lee who will show you how to prevent potential violations, saving you thousands in fines.

We'll also have a live trivia game where you can test your dental software knowledge for a chance to win Loloz cavity-fighting candy treatment packs (a \$30 value). Think you know what separates one dental software product from another? **Stop by booth #525 April 7-9th and find out!**
