

BUSINESS MATTERS

Did you know you can add phone types?

DAISY has a set of default phone types installed on your system. But, what if you needed to add a secondary cell phone or a care taker's contact information? You can do that!

To add a phone type in DAISY, do the following:

1. Go to DAISY > Configure > **List Maint**
2. Click on the **Simple Lists** tab
3. Select **Phone Types** from the drop down menu
4. Right click in the phone types grid and select **New Item**
5. Enter your phone type and save your changes

Benefits of digital attachments:

Faster delivery, unlimited use
No more "lost" attachments
Use any digital imaging system

DAISY 4.6 - early adopters wanted!

DAISY 4.6 is being planned and we are looking for DAISY clients who are interested in trying out and providing feedback. If you want to use the new enhanced reporting capabilities, easier to access patient and clinical information, bill tertiary insurance and try out our users' most asked for enhancements, then participate in our DAISY 4.6 beta program.

Does this sound like something you have been waiting for? Would you like to learn more? Are you already asking yourself - "Where do I sign up?" Contact Karyn Zerr at karyn.zerr@dmcdental.com.

DAISY Incharge - EMV compliance

You may be hearing about the new EMV chip on newly issued credit cards. EMV is short for Europay/MasterCard/Visa. DMC is working closely with TransFirst, our merchant partner to ensure DAISY InCharge will meet the EMV technology requirements by the October 1, 2015 deadline. With this new technology comes new equipment and enhancements to the virtual terminal. We will be releasing more information soon. Stay tuned!

Open an attachment...and bring down your network?

Many people think this will never happen to them, but virus attacks can come from unlikely sources and can strike when you least expect it. They can wreak havoc on your internal computers and servers and potentially compromise your patients' protected health information (PHI).

For a comprehensive guide on how you, as a business owner or leader, can implement an anti-virus plan, [download](#) our free Anti-virus eBook today!

Open an attachment
... and bring down
your network?

You will want to read this...

Our technical support teams have been busy this week assisting customers with computers infected with CryptoLocker malware. CryptoLocker targets computers running Windows operating systems. It corrupts documents and some executable files and can also impact your DAISY system and imaging software. Our technicians have been able to remove this malicious virus off infected computers and restore normal business function for our clients.

In an effort to provide excellent customer service and assist you in preventing these virus attacks, we have prepared an anti-virus resource for your practice. This anti-virus eBook provides information about viruses and steps you can take to protect your business network. We strongly encourage downloading this valuable resource and taking the appropriate steps to avoid introducing viruses into your practice. This would be a great topic to share at your next staff meeting.
